Cemetery No. 1524 — St Peter's Lutheran, Millet (J-6)

SW27-47-26-W4

To locate this cemetery from Edmonton take Highway #2 south for 54 km. At the intersection for Millet, take Highway #616 west for 2 km, then turn south for 1.6 km and west for about 1 km. The cemetery is on the north side of the road behind the church. It is well maintained and neatly planned. A cenotaph was erected in the middle of the cemetery.

Records were kindly supplied by caretaker, Karl Kemp. At the time of recording we found 72 graves. The earliest that of HENSEL, James - 12 Aug 1935.

Recorded by Noel Nicolson, AGS, Edmonton Branch, 1995.

Cemetery No. 1537 — Ma-Me-O Indian Cemetery S.P.Lake, Hobbema (J-6)

SW-14-46-28-W4

To locate this cemetery from Edmonton take Highway #2 south for 69 km. Then take highway #13 west for 24 km. Pass through Ma-Me-O and then when you see the Homestead of Soosay family on the right side of the road take the first road on the left. The cemetery is just there. There are many wooden crosses with no names on them.

We found 30 graves listed plus as many unknown. Oldest listed was YELLOWBIRD, Narcisse - 2 Feb 1954.

Recorded by Noel Nicolson, AGS, Edmonton Branch in 1995.

Cemetery No. 1538 — Lake Side Pigeon Lake North, Hobbema (J-6)**NE-23-46-28-W4**

To find this cemetery from Edmonton take Highway #2 south for 69 km. At the intersection with Highway #13 take this highway west for 22 km. Pass Ma-Me-O community centre and take the gravel road on the north side going to the lake. The cemetery is about 500 meters from Highway #13.

This cemetery is full and the north fence was removed to allow room for the most recent graves. There are many unmarked graves and many graves marked with unengraved wooden crosses.

At the time of recording 14 graves were read. Earliest grave is that of ROASTING, Wallace 2 Nov 1941 - 4 Dec 1967.

No records were readily available.

Cemetery No. 1540 — Lakedell Community Cemetery, Westeros (J-5)

SW-14-46-01-W5

To locate this cemetery from Edmonton take Highway #2 south for 69 km. At the intersection of Wetaskiwin take Highway #13 west for 28 km. Before Lakedell school turn right (north) for about 1 km. The cemetery is on the east side of the road. The cemetery is well kept and good records were provided by Don NILSSON.

At the time of recording there were found 103 graves. The earliest grave is that of Johanna NORSTROM, 1843 - 1913. There is one unknown grave located alone on the west side of the cemetery of a 14 year old girl buried in the 1930's.

Recorded by AGS Committee in 1995.

Cemetery No. 1541 — Mount Clare Cemetery, Winfield (J-5)

SW17-46-3-W5

To reach this cemetery from Edmonton, take Highway #2 south for 69 km to #13 W. Proceed 55 km to Winfield.

All records and the plot map were destroyed in a house fire in 1975. The community members re-did a plot map by memory and gathered records from family members. Since then it has been kept up to date with records kept in two places. The community thanked the AGS for providing yet another place to store the records for their cemetery.

At the time of recording 156 graves were found in the cemetery. Earliest graves recorded were those of Elva Mable PLATZ 1895 - 1949; Minnie HEDIN 1903 - 1949; Benjamin WARD Mar 1949; and Napoleon BOUCHER - 1949.

Information kindly provided by Helen Jones of Winfield..

Cemetery No. 1542 — Bunker Hill Cemetery, Winfield (J-5)

SW-22-46-03-W5

To locate this cemetery from Edmonton, take Highway #2 south for 69 km. At the intersection of Wetaskiwin take Highway #13 west for 55 km. Just before Winfield take Highway #20 north for 2.7 km and then take the first gravel road going east for 4.5 km. At the third crossroad turn south for about 1 km. The cemetery is on the east side of the road.

The cemetery appears to be well kept. There are no records available due to a fire. The oldest grave recorded was that of John N BUNKER - 1920. At time of recording there were 66 graves. Two of the stones were badly worn and difficult to read.

Recording done by Noel Nicolson, AGS, Edmonton Branch.

Cemetery No. 1543 — Poplar Valley & RC, Winfield (J-5)

NE16-46-4-W5

In the year 1932 a group of residents got together to discuss the need for a cemetery in the community. There were not many cemeteries close by in those days. The original members of this group were, EP Smith, W Turnbull, H Walsh, CW Johnson, E McKenzie, Geo Dewar, L Headrigan, B Kluczny, E Janke, O Day, C Clemmer, OD Campbell, BJ Shamp, and B West. They acquired two acres of land from the government, part of NE16-46-4-W5. The land was cleared by hand then broke with horses and breaking plow. Once the land was broke, then came the job of leveling and seeding. The greatest job of all was mapping out the plots, walkways, etc.

The first burial in the cemetery was John Haynes on 22 March 1937. there was an infant grandson of John Haynes buried the same day in the same plot. The next burial was a young 8 year old girl, Minnie Shieffert, on 1 Sep 1937, then James Dyvig, on 14 Feb 1938. For the next few years there were not many new graves, so it wasn't very well taken care of, once a year someone would come in with horses and mower to mow the grass. As there began to be more graves with head stones it couldn't be done with horses anymore. By this time most of the original group had either moved away, or were at rest in the cemetery. In 1954 a group of second generation people decided to take over the care of the cemetery. We had several working bees in the summer to mow grass, repair fences, to keep it looking nice, In 1990 we received a grant through Alberta Lotteries to pave the drive way so the hearse wouldn't get stuck, we built a new fence and had a sign made to put at the front of the cemetery. We also paved the front between the road and the cemetery for parking space. Now, thanks to the generosity of people who have loved ones buried in the cemetery we are able to hire a man to take care of the cemetery for us.

Cemetery No. 1545 — Siegel Hill Cemetery, Winfield (J-5)

SE-05-46-06-W5

To find this cemetery from Edmonton take highway #2 south to Wetaskiwin (69 km). Turn west on highway #13 for 79.5 km. The cemetery is on the north side of the road. From the local history book *"Back Horse to Pavement"* we read "When Margaret SIEGEL, daughter of William and Ida SIEGEL, passed away in 1913 there were no cemeteries around so she was buried on W. SIEGEL's homestead quarter".

Later when Ida SIEGEL found it necessary to sell the homestead quarter she reserved a corner of it and donated it to the community for a cemetery."

At time of recording 73 graves were found. The stones were found in good condition. Records were kindly supplied to us by Bob Stewart. Our plotting corresponds to the original plotting. Recording done by a committee of AGS, Edmonton Branch in 1994.

Cemetery No. 1546 — Alder Flats Cemetery, Alder Flats (J-5)

SE-05-46-07-W5

To find this cemetery from Edmonton, go South on highway #2 for 69 km, at the intersection of Wetaskiwin turn west on Highway #13 for 80 km to Alder Flats. Continue straight through the town. The cemetery is located 1.5 km west of the town on the right-hand side of the road.

The cemetery is well maintained and stones seemed in good condition. Information of records was kindly provided by Mr JL SEELY. For our purposes we used our own plotting system although the system used by Mr SEELY works well for him.

At the time of recording we found 121 graves.

From the local history book "*Back Horse to Pavement*" we read "The Alder Flats Community Cemetery Co came into being in 1938. The land was donated to the community by the late John FORCHUK".

The cemetery is community owned and operated.

The first to be buried in Alder Flats was the infant son of William and Helen TODEROVICH, who live now at Vegreville, Alberta.

Recorded by Peter Goutbeck and Noel Nicolson, members of AGS, Edmonton Branch in 1995.

Cemetery No. 1557 — Lone Ridge Cemetery, Falun (J-5)

SW14-046-26-W4

To locate this cemetery from Edmonton take Highway #2 south for 69 km then take Highway #13 west for 2.5 km. The cemetery is on the north side of the road at the back of Brightview Church.

In 1911 one acre was given for a church and cemetery by Carl J Johnson. Each year a clean-up committee makes the place neat and tidy. Records were kindly provided by Mr Cletis TURPIN. At the time of recording 150 graves were recorded. The earliest grave recorded was that of Ernfred EKLUND - 1911. The cemetery was very well maintained and all the stones were readable. We used our own numbering system for the plot plan.

Cemetery No. 1640 — Maywood Cemetery, Winfield (J-5)

SE-06-46-05-W5

To locate this cemetery from Edmonton, take Highway #2 south for 69 km. At Wetaskiwin intersection take Highway #13 west for 76 km toward Buck Lake. The cemetery is off the main road on the west side. When you reach Buck Lake on Highway #13, turn south for 3 km. Before going back in westerly direction - take the local road on the west side before the last curve. From the local history book "Back Horse to Pavement" we read "The site of Maywood Cemetery was picked out by Elmer Ellsworth, Cedonia Platnick, who was a housekeeper for Bill Taylor, was the first person to be buried there. It has been claimed that local Indians used this location for burials before the cemetery was formed. The cemetery has been maintained over the years in fairly good order by donation work by the local cemetery committee and residents of the area.

In 1975 a provincial grant was used to put name markers on unmarked graves, level the ground on the east side, plant trees and generally upgrade the cemetery, records and maps."

Records were kindly supplied by H. SHARP. At the time of recording we found 210 graves. There were some unknown graves and some discrepancies on the dates of death between stone and cemetery plan layout.

Recording done by Noel Nicolson, AGS, Edmonton Branch in 1995.

Cemetery No. 1645 — Twin Creek Cemetery, Falun (J-5)

NE-15-45-26-W4

To located the Twin Creek and Colleton cemeteries from Edmonton take Highway #2 south for 69 km. Then take Highway #13 west for 2.3 km. Turn south for 8 km. As you cross Twin Creek you will find the first set of 5 graves on the west side of road. There are no records available for these but they are on Colleton land. The main cemetery is about 400 meters south on the same side of the road.

Graves of two babies are located across the creek in the north west direction: no markers present.

There are some unmarked and unlocated graves shown on a map hanging from a tree inside the cemetery. We have tried to map it to the best of our ability.

Total number of graves recorded was 60. The earliest that of TORVINEN, Andrew - 1912.

Recorded by AGS Committee 1995.

Cemetery No. 1680 — Johnson Farm Cemetery, Falun (J-5)

SW14-47-26-W4

To locate this cemetery from Edmonton, take Highway #2 south for 54 km. At the intersection for Millet take Highway #616 west for 8 km; then south for 1.6 km, west past St Peter's Lutheran and take the next road south for 3 km. Turn east for 1.8 km. The cemetery is on the north side of the road, north of Watelet Lake, in a bushy area.

When the death of an infant created a need for a burial site the grandfather of Mr Ronald Johnson donated 1 1/2 acres of land for community use. As far as is know it has never been registered. As a result no grants or assistance has ever been available for upkeep and the fenced property has become overgrown and only one grave has a readable marker. It is the wish of the surviving relatives to restore the area so the site will not be lost forever.

Introduction

The purpose of this study was to investigate the effect of the concentration of the solution on the rate of the reaction. The reaction was carried out at a constant temperature of 25°C. The concentration of the solution was varied from 0.1 M to 0.5 M. The rate of the reaction was measured by the change in the absorbance of the solution over time.

The results of the experiment are shown in the table below. The rate of the reaction increases with the concentration of the solution. This is because the concentration of the reactants increases, which leads to a higher frequency of collisions between the reactant molecules. The rate of the reaction is directly proportional to the concentration of the solution.

The following table shows the results of the experiment:
